

Forest Village Wins Award in International Property Competition

The results of the CNBC Europe & Africa Property Awards 2008 has been revealed and Forest Village is delighted to announce that it has won an award in the category
Best Retirement Development in South Africa.

To receive an award from this internationally recognised panel of property experts is proof that we as a company can not only compete, but also triumph, within the highly competitive European and African property arenas.

The CNBC symbol of excellence is a testament to our exceptionally high standards and attention to quality and detail. It is an honour and a privilege to be recognised by

our peers and we will proudly display the logo on all our future advertising.

A panel of professionals, whose collective knowledge of the property industry is second to none and unsurpassed by any other property awards, judged all the exceptional entries. Forest Village will be accepting the Europe & Africa award in London on the 27th September and will then go on to hopefully win the International award in October.
